STEIGER DYNAMICS launches all-new IKON Living Room PC at CES 2018

REDWOOD CITY/LAS VEGAS (January 9th, 2018) – At the Consumer Electronics Show 2018, leading [Home Theater PC](#) manufacturer STEIGER DYNAMICS launches the all-new IKON small-form-factor living room gaming PC.

Measuring only 14.9 x 3.5 x 12.7 inches (37.7 x 8.8 x 33.2 cm, 10.2 L volume, including case feet), IKON will fit perfectly in any TV cabinet or other areas with limited space. The included stand allows for optional vertical placement on a desk or console.

IKON features a high-quality, vibration-optimized, all black design with a metal texture finish. An ultra-quiet, dust-filtered bottom 120 mm intake fan and up to a 140 mm top exhaust fan allow maximum air flow and ultra-quiet operation at idle and low loads. This gives IKON the capability to handle 8th gen 6-Core i7-CPU's with optional overclocking and full-size NVIDIA graphics cards up to the TITIAN V.

Highlights:

- Configurations starting from \$699
- Compact design that allows for horizontal (on rubber feet) or vertical positioning (with included stand)
- CPUs up to 6-Core 8th Intel gen i7-8700K (with optional de-lidding/overclocking)
- NVIDIA graphics cards up to TITAN V with HDMI 2.0b, HDR10, Dolby Vision and HDCP 2.2
- Configurable with up to two 3.5" HDDs, six 2.5" HDDs/SSDs and two M.2 SSDs
- Optional RAID1 and 0 arrays for HDDs and M.2 NVMe SSDs
- Standard Gigabit Ethernet, Dual-band ac Wi-Fi and BT 4.0 (or higher)

Intel processors and chipsets, combined with M.2 SSD system drives and high-speed DDR4 memory give IKON the performance of a high-end, large desktop PC in a small-form-factor housing. NVIDIA GeForce GTX and TITAN graphics cards with allow content creation, all-ultra native 4K gaming, maximum-quality 4K streaming, and video upsampling capability. IKON fully supports lossless bitstreaming of multi-channel surround sound including Dolby ATMOS.

Specs and Pricing:

IKON is available in three lines. The *Pure* line starts at \$699 and caters to the media center, audio and video enthusiast. The *Core* line is additionally tailored to gamers, while the *Reference* line delivers both maximum processing and graphics power.
